

DOMAIN MANDALA TEMPLATE

A 7-Layer Yantra–Mandala Architecture for Structuring Any Knowledge Domain

MandalaStacks.com

WinMedia — Knowledge Systems Lab

v1.0

How to Use This Template

1. Start with your Domain Seed Statement.
2. Fill in the Yantras.
3. Expand into Mandala Layers.
4. Build Canonical Workflows.

Domain Seed Statement

Domain:

Primary Users:

Key Outcomes:

Values / Constraints:

Seed Statement:

Layer 1 — Form (Yantra: Unit → Link → Structure)
